

Line~UPs Box

Designed for UPS

The Ablerex Line~UPs Box is an advanced monitoring device that connects directly to Ablerex UPS. It enhances the reliability and managment of the UPS by providing real-time monitoring and instant notification, thereby minimizing downtime and potential damage to the connected equipment.

Telegram

Real-time Monitoring

Constant monitoring of the UPS's performance paramaters such as UPS Status, Power Status, UPS Temperature, Battery Voltage and Battery Charge.

Instant Notification

Send immediate notifications and alerts via Line/Telegram/Viper App and Email.
